## Purpose of Development Charges

To recover the growth-related costs associated with the capital infrastructure needed to service new development and redevelopment.

Development charge funds may only be used for the purpose for which they are collected.

Development charges are based on the methodology that existing taxpayers should not be liable for the capital costs of new growth. At the same time, new taxpayers should not have to contribute more than the net capital cost attributable to growth in order to maintain current levels of municipal services.

## Term of By-law

By-law 2014-22 was passed on June 30, 2014 by Muskoka District Council and came into effect on July 14, 2014. By-law 2014-22 is set to expire on July 14, 2019.

## Development Charges Related Services

By-law No. 2014-22 imposes separate and distinct development charges:

- Muskoka Roads Development Charge,

## Development Charge Collection

Development charges are payable in full on the date that the building permit is issued.

Where any development charge, or part thereof, remains unpaid after the due date, the amount unpaid will be added to the tax roll and will be collected in the same manner as taxes.

- Redeveloping a property or making interior alterations that result in a change of use to all or part of the building.

## Development Charge Calculation

All development is categorized as either:

- a) residential;
- b) non-residential; or
- c) mixed use.

**NOTE:** Please refer to By-law 2014-22 for the rules associated with the calculation of each type of development.
